

# gComply

## Regulatory Reference Database

gComply provides the current, necessary, and relevant global knowledge and regulatory library to determine the compliance status of your products and substances.

gComply is a powerful web-based regulatory reference database providing access to over 100,000 regulations across more than 200 countries, allowing you to scan applicable requirements relevant to your business or products. Using over 5 million terms across 40 languages, gComply is updated monthly, providing you a user friendly searching and crossreferencing tool at your fingertips.

## Features

- Search and find applicable regulations and amendments in identified countries or regions relevant to your products
- Search for specific criteria in particular regulations
- Find regulatory updates or changes with ease
- Quickly review a variety of regulations applicable to an individual ingredient or substance
- English translations of important regulations available
- Offered in a variety of modules for your specific needs:
  - Food and Beverage
  - Food Contact and Packaging
  - Food and Feed Contaminants
  - Consumer Products (Cosmetics, OTC Drugs, Electronic Products, Household Goods etc)
  - Customer Standards
  - Product Safety and Inventories
  - Toxicology
