REGISTERED SEAT						
Address Of Main Operative Seat						
Address Of Another Operative Seat						
COMPANY CONTACT PERSON (NAME/FAMILY NAME/ROLE) CONTACTS						
(Tel., E-Mail, Mobile Phone)						
COMPANY GENERAL INFO	ANNUAL TOTAL TURNOVER	N° Employees				
TYPE OF CERTIFICATION REQUIRED						

Bioagricert certifies the application by companies of specific standards for the production of Organic and Natural Origin cosmetics.

CERTIE SOME MIN 95%
NATURAL ORIGIN

**COSMETIC OF NATURAL ORIGIN** composed of at least 95% of "natural ingredients" and "ingredients of natural origin".

The use of additives and other synthetic substances is allowed up to a maximum of 5% by weight of the total ingredients of the finished formulation.

However, the use of synthetic perfumes and chemically modified natural perfumes is allowed up to a maximum percentage of use equal to 1 in weight of the total ingredients of the finished formulation.

**ORGANIC COSMETIC** containing organic ingredients for at least 51% of the total volume of the product.

Certified organic ingredients are always indicated on the label and/or highlighted in the list of ingredients (INCI). On a voluntary basis, the percentage of organic ingredients on the total volume of the product may also be indicated on the label.

In the context of a formulation the same ingredient cannot be present either organic or conventional.

NATRUE INTERNATIONAL STANDARD (<a href="www.natrue.org">www.natrue.org</a>) which establishes criteria and requirements, shared worldwide for the production of: natural cosmetics, natural cosmetics with biological components and organic cosmetics.

The **NATRUE** trademark identifies the cosmetics conforming to the standard and guaranteed by a certification system subject to ISO EN 17025 accreditation.

SERVICE REQUIRED					
☐ Certification of finished cosmetic product	☐ Approval of formula				
☐ Certification of raw material	☐ Approval of raw material
